DOROTA STANCZYK

YOUR DEVINE FEMININE GUIDE.

Dorota Stanczyk is a Polish transformational artist, wellbeing creator, conscious creativity trainer, keynote speaker and author of the book “(Re)-Create Yourself”. Dorota combines her knowledge of creativity and consciousness to design retreats, digital products, interactive exhibitions, and transformational experiences in the wellness industry, to raise awareness of new models and paradigms of living, working, and being. As the Executive Creative Director of Mindvalley, Dorota applied her knowledge to support innovative learning approaches, and has worked with authors and influencers such as Wim Hof, Michael Beckwith, Neale Donald Walsch, Lisa Nichols, Jim Kwick, Gelong Tubten, Dave Asprey, Marisa Peer, Nicole Bradford, and more. Dorota began studying consciousness, self-awareness, and mindfulness in 2014, after her first awakening. This led Dorota to experience a shift in her perception of reality, and herself. Using this acquired knowledge, she has since helped many people through her coaching, training and talks, to overcome self-limitations and reprogram their belief systems. She will be leading Devine Feminine Awakening Workshops, Sacral Chakra Activation Process, Meditations and Breathwork.

The course is designed to deepen your experience, and understanding, of how your mind, your thoughts, your energy and your intentions combine to create the experience of your lives.

You will be invited to step beyond the edges of your known experience of yourself. Into the unknown, creating the new. You will learn how to identify and free yourself from any unconscious programs you are operating through, to release and express emotional blockages from your body, and learn how to recognise your inner-guidance and reconnect with your intuition.

You will form an entirely new level of intimacy in the relationship with yourself and others. You will be able to witness for yourself what true wholeness, confidence, love, inspiration, and joy feels like.
